

Nicodemus Wilderness Project

The Nicodemus Wilderness Project was founded because of the need for environmental restoration, stewardship, and protection of neglected public lands. Our organization coordinates volunteer events worldwide that utilize the resources of the community to provide long-term environmental benefits for natural areas. We have established a large and enthusiastic volunteer network that draws upon the diverse strengths of different races and cultures to accomplish our common goal of restoring the beauty of the natural landscape. By working together with our community, the Nicodemus Wilderness Project educates our youth about the need to protect the integrity of the environment by promoting stewardship of the wild lands and waters that support Earth's biodiversity and ecosystems.
