

Services Foster Care and Adoption Info

As a CYFD foster parent, you provide safety and nurturance to children who cannot live at home with their families because it is not a safe place for them. Foster parents open their homes and their hearts to children in custody by allowing them to feel safe, grow and learn in a family setting. Foster parents encourage children in their home to remain connected to their religion, culture, and community. Foster parents can be a part of a child's life even after they have returned home, if they choose to and the child and family are willing. Each year about 100 youth emancipate from the foster care system without a family. Are you ready to be a family? Be a foster parent for a young person.
