Drunk Busters Hotline

Drunk Busters allows drivers to quickly report suspected DWI drivers through the use of a toll-free number and cell phone convenience key.

- **877-394-4258 (877 DWI HALT) is the Toll Free Hotline.**
- **#394 / #DWI is the convenience key for cell phone.**

When placing a call to the Drunk Busters Hotline an operator will ask you the following questions (remember, the faster we get this information, the sooner we can dispatch the call to the appropriate enforcement agency):

1. ***What is the exact location of the suspected drunk driver?*** Give the name of the road and a cross road. If traveling on a highway, note the mile marker and the direction of travel.
2. ***What is the color, make, model and license plate of the vehicle?*** These are details which will help us clearly identify a vehicle from others.
3. ***Describe what the vehicle is doing.*** Swerving. Not maintaining their lane or speed. Running into curbs or dividers. These are good indicators of an intoxicated driver.
4. ***The operator will ask for your name and telephone number*** in case we need further information on the suspected driver. All calls may remain anonymous.
