Financial Management Services

NPBOR will provide a variety of financial management services, the breadth of which will be determined by the needs and budget of each nonprofit organization it serves. The services that will be provided include assistance in preparing financial statements, budgets and other required reports in a timely manner and linking this service with required training and access to software and information technology. By centralizing this expertise and using student interns, NPBOR plans to keep the fees for these services below what these services would cost a nonprofit to provide on their own.
