Outdoor Adventures

The Outdoor Adventures curriculum is not your traditional PE course. Instead of teaching PE with basketballs and tennis rackets, we use a variety of value adding outdoor skills equipment. The Outdoor Adventures course is designed to change young people's lives forever by exposing them to the many great opportunities of the outdoors. With today's accelerated curriculum, full of bench mark testing and academic pressures, students need an engaging class that will motivate them to stay in school and concentrate on their studies. The Outdoor Adventures curriculum is already being taught in hundreds of secondary schools that have reported many positive attributes associated with the class. Outdoor Adventures is growing in New Mexico! We are currently in House Municipal School (House, NM) and Deming High School (Deming, NM).

Details

Ages: Children and Youth Teen
