#### **Pinon Project**

The Piñon Project Family Resource Center is a nonprofit organization that originated in 1994 as a result of a community grassroots effort under the Healthy Communities Initiative. Through the initiative, Montezuma County engaged in a process of creating a statement of vision for our community's future. The Piñon Project is a member of The Family Resource Center Association (FRCA)'s unique network of 24 family resource centers that work with the entire family to help them become more self-reliant in areas that affect their family stability; including parenting, health, education, employment, housing, and financial management.
