Preserve Estaca

Our first goal is to fund research to investigate the history of Estaca by hiring a consultant to document the many layers of history with a second goal of moving towards registry as a Historic District that includes form systems, acequias, trails, and archeological sites.

A gravel mine above the area has destroyed many petroglyphs and the Eagle Gap Trail that crossed the Rio Grande River over to Ojo Caliente Hot Springs. We wish to document the remaining historical sites for future generations.

A second goal is to record oral history of the area.
