Parent Organization

Praising Earth

The work of PRAISING EARTH is anchored in a commitment to revitalize the oral traditions of song & poetry in their original context of prayer and ceremony as a means of rewilding the human relationship with language and voice, with fellow men & women in community, and with the natural world and all earthly species to better navigate the current ecological crisis and serve as inspired stewards of a re-balanced, newly-flourishing Earth. Based in New Mexico, we also serve California annually, bringing song and poetry oral traditions to the Bay Area.
