STEAM Summer Camps

R4 Creating partners with Be Greater Than Average to offer a variety of STEAM summer camps. These camps offer students experience in robotics, programming, problem solving, stop motion film, film editing, website development, and more. In addition to the camp participants, the camp offers opportunities to older students as paid peer mentors, and interns for job experience and transitions into adulthood.

Parent Organization

R4Creating

At R4Creating, our mission is to provide training for students and support for organizations that are making valuable contributions to increase the number of both STEAM (Science, Technology, Engineering, Arts and Mathematics) and Career Readiness Opportunities for students. We strive to offer students a competitive advantage that links their potential to a strong and successful future that leads them into a STEAM Career Pipeline.
