

SHARE new mexico™

ASL Interpreter Referral

RGC Access is the only local, 501©3 non-profit interpreting referral agency in the state of New Mexico. The main focus of the organization is to provide high quality Sign Language interpreting referral services with a socially conscious framework. We provide interpreting services to hundreds of businesses and organizations throughout the state including federal, state, educational, nonprofit, and small local entities. We are available to advise and provide counsel for individuals with interpreting needs in the rural areas of New Mexico as well. Communication is important. RGC Access strives to keep communication affordable for Deaf people and local businesses. We have competitive rates and nonprofit discounts. We will tell you the cost of interpreting before the assignment and are always clear with our fees. Our goal is to make sure the Deaf residents of New Mexico are able to access their community and fully participate in events.
