Ascend Business Services

Ascend Business Services was created to improve the back office operations of New Mexico Charter Schools. Ascend achieves this goal by providing CFO level competencies to our community's charter schools thus increasing their ability to mitigate risk and scale student growth. Moreover, in a targeted fashion, Ascend attempts to disrupt the business service market for charter schools by supplying higher quality services and simultaneously reducing price points for services thus upending the current market norm. Ascend Business Services contributes to the operational efficiency of New Mexico Charter Schools and educational outcomes for its young students because it helps charter schools improve their operations, maximize the use of their lean budgets and grow their school populations. Ascend Business Services is currently pursuing status as a non-profit 501(c) (3) corporation.
