## Oil & Gas

The Alliance acts as an industry watchdog, raising awareness of impacts while advocating for better planning and responsible regulations. We have over 25 years of experience working on conventional, coal-bed methane, and shale oil/gas exploration and development. We know how to pushback against irresponsible energy development.

## Parent Organization

### San Juan Citizens Alliance

San Juan Citizens Alliance advocates for clean air, pure water, and healthy lands -- the foundations of resilient communities, ecosystems and economies in the San Juan Basin. In addition to working in both Colorado and New Mexico, we have long-standing partnerships with Navajo Nation advocates as members of the Nation often experience the brunt of climate and health impacts from the overwhelming amount of fossil fuel development in the Four Corners.
