Animal Investigations

We bring this interactive program to your 2nd grade classroom. Our instructors present a 1-hour lesson about local animals and their physical characteristics. Students visit 5-6 hands-on stations with animal "evidence" (skulls, tracks, fur/feathers) while recording their observations in a journal and figuring out what animal they come from. We then come together to go over observations and reveal the mystery animals.

Program includes scientific inquiry and close observation, working in groups, comparison of animal characteristics, herbivore/omnivore/carnivore, and local biodiversity and habitat.

Details

Ages: Children and Youth

Races: All

Genders: All

Intake Process: Call Email

Payment Options: Free

Special Needs: Physical or cognitive disabilities

Minimum Age: 2nd grade

Maximum Age: 2nd grade
