### Santa Fe Alliance for Science

The Santa Fe Alliance for Science (SFAPS) inspires the inner scientist in Santa Fe youth by creating STEM learning opportunities through our extensive network of volunteer scientists, engineers, and other STEM (science, technology, engineering, and math) professionals. Our volunteers, which range from physicists, engineers and chemists to educators, biologists and physicians, dedicate thousands of hours each year to engage approximately 4,500-6,500 Santa Fe Public School (SFPS) students in school-based STEM learning experiences. Our vision is that every Santa Fe student is “STEM Ready” to explore and succeed in life.
