Saranam

Saranam provides a two-year continuum of care in a safe and nurturing environment and six steps to self-sufficiency that motivates participants to long-term success. Saranam provides safe, stable, and fully furnished transitional housing so families have the capability to concentrate on breaking down the barriers to more secure futures. Having basic living needs provided for up to two years, families are able to focus their efforts on education, vocational development and acquiring life skills for independent living. Families reside together in an apartment complex with a playground and community garden and are supplied with basic living items—food, clothing, household goods, childcare and a small stipend. Our Children’s Support, Tutoring And Resources (STAR) Center provides afterschool and weekend activities that meet the specific needs of the children in our program, including tutoring and enrichment activities.
