

SHARE new mexico™

Riparian Restoration

Works with landowners and area agencies to develop and implement riparian restoration projects on the Rio Grande within Socorro County, New Mexico. Products developed include a Feasibility study (2003), conceptual plan (2004), and on-going project designs. Projects include contract work thinning Bosque on public lands, restoration on private lands on the east side of the river, assisting MRGCD in managing their bosque, and implementing wildfire protection techniques to limit wildfires in the program area.
