## After School and Summer STEM

Scientific Adventures for Girls (SAFG) provides after school and summer STEM (science, technology, engineering and math) programs to young children with a special focus on girls and under served youth. SAFG's goals are to increase positive attitudes toward STEM in K-5th grade female students and to increase hands-on learning opportunities for girls everywhere to explore STEM concepts and encourage lifelong learning of STEM subjects.

### Scientific Adventures

SAFG's mission is to remove systemic barriers to all girls' participation in STEM starting in kindergarten, engage them through hands-on learning, increase their positive attitudes toward STEM, and equip them with 21st century skills.

SAFG envisions a gender- equitable society, where all girls know their full potential and know they are capable of great things.
