Studio of Hope Corporation

Music Ministry and recording studios, our on going project of "putting the gospels to music" and teaching the ins and outs of how to get signed as a Christian performer and how to sign BMI recording contracts for free to protect your music and gain royalties; We are actively seeking grants for our free spay and neuter programs for low income residents, were also active in training service animals and search and rescue dogs (SAR) that we can train for disasters and loan to the disabled, the waiting list for service animals can be several years and the time and dedication that goes into training each animal is enormous, volunteers are desperately needed, if you own a German or Belgian Shepard or a Border Collie your dog would be an asset to the community- For more information visit our website! We also are working on an informational E-book on the Bernalillo courts and how to answer a complaint without a lawyer and where to get help when you need it.
