## Taos Whole Community Health

Taos Whole Community Health expands access to the whole spectrum of medicine for the people of Taos county and beyond by providing services that range from allopathic primary care to naturopathic primary care to Chinese medicine, massage, acupuncture, ayurvedic medicine, nutritional medicine and mind-body medicine. We also collaborate with Red Willow Hospice to provide in-home integrative palliative treatments. All services are offered in a collaborative, educational environment that increases access to this wide range of care by offering unique holistic residency programs, accepting Medicare and Medicaid, offering free care to those without insurance access, and offering numerous group programs.
