Seat and Program Sponsorship for FatPipe NM Tenants

FatPipe NM is expanding its coworking network statewide and opened in Rio Rancho in August 2018. We have setup a nonprofit arm called The Enhance Fund to promote our economic development work for startups and small business and to seek grant funding assistance for our programs and entrepreneurs. We are seeking sponsorship of seats and programming at our new FatPipe Rio Rahco location in Sandoval County. Seat sponsorship means you'll pay rent for up to six months for multiple up-and-coming new businesses at our new FatPipe Rio Rancho coworking spaces and will be investing in the future of our community and our state. Each seat you buy represents rent that the sponsored entrepreneur won't have to pay, giving them a longer runway to establish and grow their business. Programming, which includes workshops and one-on-one training, in Sandoval County will be enhanced to work with local partners and target the specific needs of this entrepreneurial community. We are specifically seeking sponsorship dollars for our new location in Rio Rancho to help kick-off the entrepreneurial programming and community support we are bringing to Sandoval County.

Geographic Area Served: Sandoval County

Parent Organization

The Enhance Fund

The Enhance Fund is a 501(c)3 non-profit organization whose aim is to advance biotechnology, optics, photonics, materials science, and other high-tech sectors in New Mexico by offering education and training to emerging technology companies. The Enhance Fund is the non-profit arm of the FatPipe NM coworking network and The BioScience Center, all owned by Stuart Rose. We provide education and training to start-up companies as well as other economic development outreach and education to the public. We offer programming, workshops, training, and community outreach targeting technology-focused entrepreneurship.
