The Grant Plant

The Grant Plant has secured over \$100 million in funding for New Mexico's nonprofit organizations. Our team crafts award-winning proposals, allowing clients the capacity they need to run their programs without focusing on the time-consuming task of grant seeking and writing. We help with all aspects of the grant process from research to writing to grants management and reporting. This ensures none of the steps in the process get overlooked or forgotten. Our track record has enabled us to contribute to the culture and well-being of people throughout New Mexico while fostering connections between clients as part of our efforts to improve the state's standard of living. The Grant Plant works exclusively with nonprofit organizations ranging from large to small, grassroots operations.
