## Scholarships for Competitive Soccer Players

We envision a community where all kids, regardless of their families income benefit from the practice of competitive soccer. We envision a community where kids thrive from being placed in an environment where expectations are placed on them, where they are physically active and surrounded by their peers. To this end, we allot \$300 scholarships to deserving athletes to help them afford competitive club soccer fees. The scholarships are paid directly to the clubs and are put towards coaching and club fees.
