## Professional Development

Professional development grants are offered twice a year to instructional staff and related service providers in the Taos Municipal Schools. Grants are currently focused on literacy and social emotional health efforts, which are the current focus areas of The School Zone - Taos. Grant recipients are required to make presentations to their colleagues about their professional development topic.

## Parent Organization

### The School Zone - Taos (TSZ-Taos)

The School Zone–Taos (TSZ-Taos), a community project of Taos Community Foundation, is a collective impact partnership between nonprofits and public and charter schools, engaging students, caregivers, and the Taos community to work together to improve student outcomes. TSZ-Taos is a community-based project launched in June 2015, a multi-year, multi-partner road map for school improvement, guided in part by the working Strategic Plan of Taos Municipal School District, in consultation with the Budd Center at SMU. It is modeled after a successful evidence-based program and based on the premise of involving communities in education.
