UNM Addiction and Substance Abuse Program (ASAP)

Our ASAP Primary Care Clinic offers adult primary care services for those being treated for substance abuse using preventative medicine. Counseling and case management. Our Newstart program features 12 weeks of treatment with at least 2 hours of contact weekly. We utilize a cognitive-behavioral format. Individual sessions with your primary counselor are encouraged, and we also offer a women-only group. The Ambulatory Detoxification program is designed to medically assist patients with either an alcohol or drug detoxification. We also offer opioid replacement therapy, Buprenorphine (Suboxone) or Methadone.
