Western Sky Community Care Hepatitis C Treatment Program

Western Sky Community Care tests for and treats Hepatitis C. Hepatitis C is a virus in the blood. It causes fatigue and yellowing of the skin and eyes. Long-term, it damages the liver.

Hepatitis C is easily treatable in pill form. Western Sky Community Care has a program to support your path to getting tested and then treatment if you are positive.

For more information call our program coordinators today at 505-886-6332 or 505-886-6461. We will help you find a provider in your area to get started.

Parent Organization

Western Sky Community Care

Western Sky Community Care is committed to providing solutions for Medicaid beneficiaries throughout New Mexico. Western Sky Community Care, a wholly-owned subsidiary of Centene, in partnership with the New Mexico Human Services Department, will provide coordinated healthcare, long term services and supports, pharmacy, vision and transportation services. Western Sky Community Care will work closely with Primary Care Providers and Centennial Care enrolled members in providing comprehensive care coordination ensuring their medical needs are met. We partner with physicians, specialists, hospitals, and other providers, such as pharmacy and vision, to ensure that each member receives quality healthcare.
