WISC Fellowships-in-Residence

Artists, writers, scholars, professionals, innovators and entrepreneurs, as individuals and in groups, are encouraged to apply for residencies available throughout the year. WISC seeks proposals aligned with our focus areas – broadly defined as the arts, sciences, cultural preservation, business and philanthropy – inspired by the three generations of women who built and lived in Acequia Madre House. Proposals by women are accepted, as are those of anyone working in these focus areas as they relate directly to the interests and experiences of women.

Parent Organization

Women's International Study Center

WISC is dedicated to inspiring and enabling women around the world to achieve their full potential. WISC honors women's accomplishments, supports study and research through fellowships-in-residence, and facilitates inter-generational, multi-cultural and cross-disciplinary dialogue via symposia, conversations, lectures and other events.
