Parent Organization

Working Classroom, Inc.

Working Classroom cultivates the artistic, civic, and academic minds of youth through in-depth arts projects with contemporary artists to amplify historically ignored voices, resist systemic injustices, and imagine a more equitable society. We support and connect our students to professional opportunities so they contribute to the creative economy and build a better world. WC believes that the arts are key to building a sustainable and creative workforce. We strive to increase the representation of youth of color pursuing creative careers and/or achieving higher education.
