Parent Organization

You(th) Kan, Inc.

You(th) Kan's mission is to improve the health, well-being and educational success of each and every child living in under-resourced communities and to empower the adults in their lives to turn innovative ideas, strategies, and knowledge into practice.

We create positive programming for children that educates, empowers and engages. We develop programs with implementation models that are inclusive and effective. From STEM, to safety, to obesity prevention, our initiatives change children's lives in a meaningful, measurable, memorable way. We ignite young minds with our standards-based interdisciplinary curricula and interactive school assemblies. We energize teachers to take their passion and expertise to the next level in our Staff Development Trainings. We partner with school day, afterschool, enrichment and child-based organizations along with community stakeholders that have a vested interest in our children's futures.
