Zia Recovery Center IOP & Sober Living

Our IOP treatment level is the next step in our program after PHP. Community living is a vital function in this level of care.

Clients enter into an apartment-style living arrangement with peers in the program. They are taken grocery shopping weekly and prepare meals together in the apartment-style living arrangement and are able to obtain personal transportation or utilize ZRC transportation to and from groups at our central office.

Outpatient groups are provided at our central office three days a week for two hours per day along with individual psychotherapy and case management if necessary. A detailed aftercare plan is completed at this level.

Parent Organization

Zia Recovery Center

We know, from a personal standpoint, what individuals go through in their efforts to seek recovery. Zia Recovery Center was founded by individuals in recovery.

We offer our clients the opportunity to work with our highly trained, compassionate staff who focus on individualized, holistic treatment for drug and alcohol addiction.
